CORROSIV

9

Contents 265 g. Product contains: Chloramine-T
Ca. 1.000 tablets à 265 mg.
Each tablet contains 50 mg active chlorine

FLORISSANT 500 contains substances which prevent bacteria growth and allow the cut flowers to take up more water. This product has been developed especially for use in the bucket for harvesting flowers, but is also successfully used in supply and transport buckets.

Directions for use

Dosage

Gerberas: 1 tablet per litre water.
Roses: 1 tablet per 2 litre water.
Other cut flowers:
1 tablet per 3 litre water.

Treatment

Place the freshly cut flowers in the solution.

N.B. The solution can only be used once.

Warning

Harmful in contact with skin and if swallowed. Causes burns. Risk of serious damage to eyes. May cause sensitization by inhalation and skin contact. Store in a dry and dark place.

Precautions

Keep out of reach of children. Keep away from food, drink and animal feedingstuffs. When using do not eat, drink or smoke. In case of contact with eyes, rinse immediately with plenty of water and seek medical advice. After contact with skin, immediately take off all contaminated clothing and wash with plenty of water. Wear suitable gloves and eyes/face protection. In case of accident or if you feel unwell, seek medical advice (show label if possible).

Keeping qualities: unlimited.

FLORISSANT 500 is manufactured with the greatest care and is kept under constant laboratory surveillance. The manufacturer cannot be held liable if the product is applied incorrectly.
