

Certified spray suit make highest social care standards possible

“We at Wagagai see that a healthy and motivated workforce is the key to the success of our company. Our sprayers are crucial to the success of our business and we spend a lot on protecting them and buying the right equipment, even if it goes beyond any required legal or normal standard. After many trials we found the spray suit of UFO Supplies to be by far the best in the market and can highly recommend it to anybody in this business. I am happy to say that today as Wagagai we are one of the only propagating farms that are fully MPS-SQ and MPS-GaP certified. We are very proud that we have this certification.”

Olav Boenders
CEO Wagagai Ltd.

Wagagai Ltd. is one of Africa’s largest cutting producers, producing millions of Chrysanthemum, Begonia, Hibiscus, Pointsettia and Geranium cuttings for export to Europe on a 30 Ha farm in Uganda.

UFO Supplies developed this spray suit in conjunction with Sioen NV. Our aim was to develop a chemical proof spray suit that is comfortable to the sprayer and is long-lasting under tough circumstances.

- The only certified spray suit (EN 465 + EN 343)
- Light suit (1 kg) enables sprayer to focus on spraying
- Best choice for health, safety & environment
